LewisGale Medical Center is located in Roanoke-Salem Virginia in the heart of the Blue Ridge Mountains. For more than 100 years the LewisGale name has been synonymous with high-quality, compassionate healthcare. Today, our unwavering commitment to our patients ranks us as one of the top hospitals in Virginia and the nation for quality of care including patient safety, patient satisfaction and health outcomes. Our growing integrated network of care includes four hospitals, six outpatient centers, two cancer centers and 700 physicians at more than 160 affiliated locations stretching from Alleghany Highlands and Rockbridge County to the Roanoke and New River Valleys.

The Internal Medicine program at LGMC accepted its first residents in 2017, and we graduated our first class of 17 residents in June, 2020. In the 2021 cycle, we will be recruiting 20 residents for categorical training.

A young and growing region, Roanoke-Salem has a great deal to offer prospective residents: affordable housing, great opportunities for families with children and nationally-recognized schools, plenty of extracurricular activities.

Residents at LGMC enjoy Smith Mountain Lake and the New River for fishing, kayaking and boating and the mountains and woods for miles of hiking and biking trails throughout the region. For beachgoers, the Atlantic Ocean is about a five hour drive east and the Chesapeake Bay area can be reached in four.

Virginia Tech, University of Virginia, and Liberty University offer intercollegiate sports at the Division I level in all sports and Radford University competes in Division I in basketball. For stock car enthusiasts, Bristol, Martinsville, and Richmond are within easy driving distance. The state also has a growing brewing, winemaking and cidery industry scattered throughout the Blue Ridge and Virginia Highlands. Franklin County, located just south of Roanoke is known for having the highest density of moonshine stills in the country.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated research teams to guide residents and fellows through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

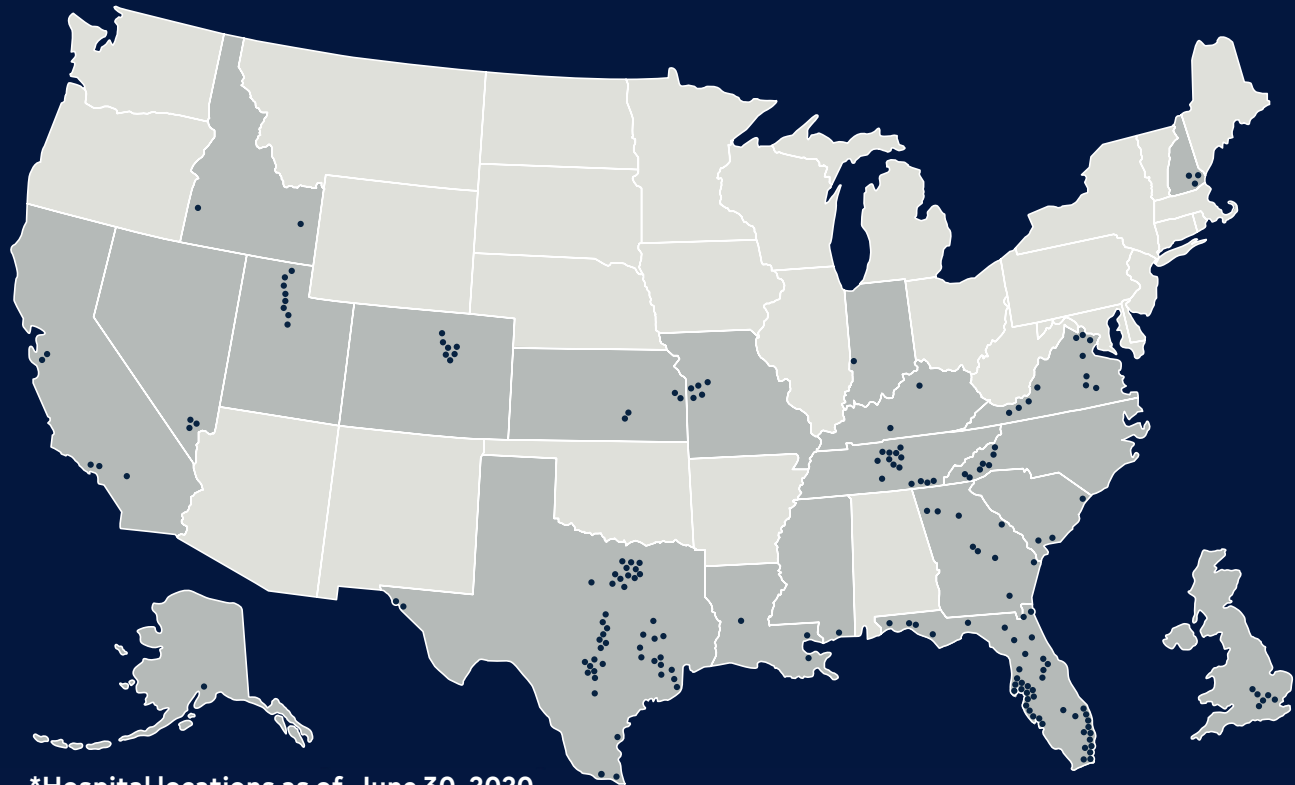

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. It is a collaborative, open access resource developed to discover and showcase our contributions to medical knowledge. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer-reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 21 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
